Notification Channels

Channel	Usage	Characteristics
Push	Immediate alerts, real-time reminders	Short, actionable, with badge. Max 10/day per user
Email	Summaries, confirmations, documents	Detailed, with CTA, full branding
SMS	Urgent only, critical reminders	Very short, no links. High priority only
In-App	All notifications, history	Detailed, with actions, persistent

Frequency Rules

Anti-spam: Maximum 1 similar notification per hour. No push between 10pm and 8am (except urgent). Daily digest option available.

Prioritization: Urgent notifications bypass quiet hours. High priority delivered immediately. Medium priority can be grouped. Low priority available in notification center.

User settings: Each user can configure preferences per channel, set quiet hours, choose notification types, and enable "Do not disturb" mode.
