PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with professional experience building web applications using the MERN stack (MongoDB, Express.js, React, and Node.js), Next.js, and TypeScript. Experienced in developing responsive user interfaces, building secure RESTful APIs, integrating third-party services, and implementing JWT authentication. Passionate about writing clean, maintainable code and delivering reliable, high-quality solutions.

PROFESSIONAL EXPERIENCE

Backend Developer — Sparktech Agency

Jun 2025 – Present (1 year+)

Backend Team Lead experienced in developing full-stack applications using React, Next.js, Node.js, Express.js, TypeScript, and MongoDB. Contributed to both backend and frontend development, including RESTful APIs, responsive user interfaces, third-party integrations, authentication, and database design. Participated in code reviews, mentored junior developers, and worked closely with the team to deliver scalable and reliable web applications.

Technical Skills

Languages & Frameworks: JavaScript (ES6+), TypeScript, Node.js, Express.js, React.js, Next.js

Database & ORMs: MongoDB, Mongoose (ODM), PostgreSQL, Prisma, SQL

DevOps & Cloud: Docker, AWS (S3/EC2), NGINX, CI/CD, Vercel

Libraries, Tools & Integrations: Redux Toolkit, Tailwind CSS, Socket.io, Git, GitHub, Postman, npm, yarn, Stripe, SSLcommerz, Passport.js, OpenAI API, Firebase Auth, JWT, Zod

Projects

Roadtripeado — Travel Mapping Platform

live: roadtripeado.shop

Backend: <https://github.com/Mohosin075/giovafilm-roadtripeado>

A commercial travel mapping platform that allows users to explore, purchase, and unlock interactive custom Google Maps guides for scenic routes and travel destinations.

- **Frontend Engineering:** Developed a responsive mapping user interface using React.js, Next.js, Tailwind CSS, and Google Maps API to render custom routes, interactive pins, and location search.
- **Backend & Database Optimization:** Engineered scalable RESTful APIs using Node.js, Express.js, and TypeScript, designing efficient MongoDB schemas to manage large location datasets.
- **Payment & Access Automation:** Integrated Stripe payment webhooks to automate premium map access, instantly unlocking purchased guides for customers.

Stack: Next.js, Tailwind CSS, Redux Toolkit, Google Maps API, Node.js, Express.js, TypeScript, MongoDB, Mongoose, Webhooks, Vercel

Education

B.Sc. in Computer Science and Engineering (CSE)

Northern University Bangladesh (NUB) | Computer Science & Engineering | Present

Languages

Bangla – (Native), English – (Basic)
